

Emboss and Creasing Guide

Emboss

Step 1

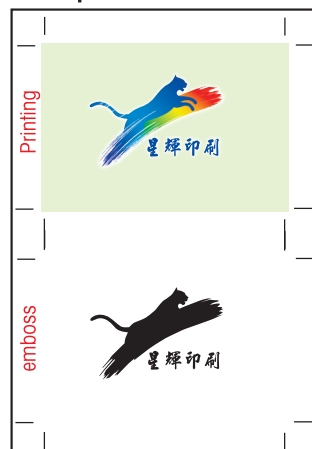

Assume the logo is the emboss area

Step 2

Fill the emboss area with black color

Step 3

Copy the emboss area with crop mark and paste below the printing area and identify with word

"Emboss"

Creasing

- 1) Please indicate the printing position at your artwork. Otherwise we will assume the artwork front and back are in parallel.
- 2) Please put all the artwork in one layer.
- 3) If you have more than one artwork in one file, please clearly specify the front and back for each artwork using F1, B1 and F2, B2
